TERMS

All bills are subject to 2 per cent discount within 10 days from invoice date. Sixty days net. Sight draft, plus interest, thereafter.

Shipments are forwarded by best carrier, in our judgment at time of delivery, unless otherwise specified by customer.

First-class stock is carefully packed when shipment is made, and we hold good order receipt from the transportation company. Our responsibility ceases thereafter. If the stock reaches you in bad condition, notify agent and bring claim against the

delivery company for damage caused by their negligence, as no allowance for this cause can or will be made by us.

Bulbs, whether shipped on arrival or placed in cold storage for later delivery, may be examined at time of arrival if desired, but no claims will be entertained at a later date.

As to all items other than **bulbs**, claims must be made within five days after receipt or they cannot be recognized.

While we exercise the greatest care to have all seeds pure and reliable, and all bulbs, plants and cuttings true to name, we do not give any warranty, express or implied, and will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms they must be returned at once and the money will be refunded.

Miscellaneous Hardy Lilies

F.O.B. New York. Deliveries from late Fall on. Bulbs should be planted immediately on arrival in a well drained soil, giving them plenty of opportunity for root action. The containers should then be set on a raised platform in a cool, semi-dark place, affording perfect drainage. When the flower buds appear, the plants will then readily submit to forcing. They may also be planted out of doors for flowering in June and early July and later.

Testimonials

May 2, 1938

It has just occurred to me that you might be interested in knowing that out of six cases of Giganteum, 200 each, I threw out exactly eight plants. This constitutes something of a record with me, even with your superior bulbs. The count ran high and the bells were unusually large and firm.

Your Paper Whites are also of superior quality. I have had excellent results and consider them equal to the French bulbs.

*Becker's Conservatories
Cambridge, Mass.*

May 5, 1938

These are the finest looking bulbs of any that I have received from you at any time. I am well pleased with them and I know from the looks of the bulbs that I shall get a good crop.

*Fred C. Edmonds
Auburn, N. Y.*

April 13, 1938

We want to take this chance to thank you for such wonderful lily bulbs. They were beyond a doubt the finest we ever had. We could not tell that when they came to us, but they have bloomed out wonderfully well even though they have been grown very crowded and in four inch pots. (6/8 Gigs). They will easily average four blossoms to the plant. Last year we had a great portion of them with two blooms but not so this year.

Greenville So. Carolina*

May 10, 1938

I wish to compliment you for the quality Lily bulbs you sent us last Fall. We had the finest Lilies for Easter of any place in the State. Many of the surrounding growers tried to make us believe we had Harrisii, judging from their size. The count was unusual, some carrying fourteen flowers, and out of the two cases, we lost but two plants. Every finished plant was sold by Saturday night.

I thought you might be interested in hearing from a customer of yours in regard to your improved Erabu Lilies. I must say they are an improvement on the old Erabu. My Lilies run from seven to fifteen buds and very few splits.

*W. H. Tomlinson
Dorchester, Mass.*

April 20, 1938

I must tell you that I was well pleased with the Lilies. I had most of them bloomed before Easter came along. They were throwing eight to fifteen blooms and came in fine for cut order. I don't think there were five poor ones in the case. Every bulb started up but one.

*Porter's Greenhouses

Our Easter Lilies this season were very satisfactory, and sincerely trust the order we are going to place with you now will be of as good quality.
